

## **DÄV's RESCUE DAWG BISCUITS**

Simple, easy and inexpensive, they will only cost you a little bit of time to make. I am by no means a chef or culinary expert, but this is basically a copy of traditional milk-bone dog biscuits. One batch will yield about 40-60 biscuits, depending how thick, wide and long you make them.

### **Ingredients:**

- 1/3 cup butter or margarine
- 1 cup hot water or milk – I actually use 1% lactose free milk
- 1 beef, chicken, or vegetable stock cube
- 3 cups flour

### **Instructions:**

- Preheat oven to 350 degrees F. Line baking sheet with parchment paper.
- Pulverize stock cube and put in a microwaveable bowl with milk & margarine. Heat in microwave until margarine is melted and then stir until stock cube is dissolved.
- Measure flour into a large bowl and mix in the milk, margarine & stock liquid and knead until mixed well forming a ball of dough you can roll
- On a lightly floured surface, roll out dough to 1/4-inch thickness and then cut up *Note:* I use a pizza cutter it's really easy and make them whatever size is best for you your dog - they don't care about the shape.
- Place on prepared baking sheets.
- Bake at 350 degrees F for about 40-45 minutes - You want them golden brown.
- Turn off the oven but the biscuits in the oven to cool. This helps to dry them for storage.
- Amount is variable, but I get about 4-5 dozen biscuits about 1"x 2"
